The One Towelling

A new collection for fresh inspirations... Check the finest quality of towels!

In this brochure you will find an extensive range of colours, sizes and qualities of towels and bathrobes. Besides the organic terry collection that we introduced in 2020 we have recently added recycled hamam towels, made of 60% Oeko-tex® certified cotton and 40% rPET fabrics. Mint is the new colour in our baby terry collection, a fresh and trendy colour for new born babies. In the kitchen collection we have added purple and orange. Additionally, white and orange are the new colours in sport and golf.

All our products and productions are BSCI and OEKO-TEX® certified. We guarantee high quality products and fast deliveries. The One Towelling® is constantly working to improve the quality of the terry cloth. The organic collection is GOTS certified and consists of towels and bathrobes in various colours and sizes. We have invested in special Tumbler Aero 24 machines in our factory for an extra soft and full terry feeling and the removal of shrinkage.

On special request you can order articles outside of our existing collection. The possibility of custom-made articles are jacquard all-over weaving or woven in the border, relief weaving, all-over printed towels and sublimation towels.
