

The background of the page is a detailed, grayscale illustration of a large, multi-compartment storage container, possibly a metal safe or a heavy-duty toolbox. The container has several horizontal drawers or compartments, each with a handle. At the bottom of the container, there are two circular wheels or casters. The word "TITAN" is printed in a large, bold, sans-serif font across the middle of the image, with a registered trademark symbol (®) to its upper right.

TITAN®

TITAN

YOUR STRONG PARTNER

Specialising in high-quality travel luggage, TITAN® is constantly pushing the boundaries of what is possible, and setting technical and aesthetic trends to a high level. Our highest priority is to continuously develop our products further and this motivates us to proceed with innovative concepts. This is why we cooperate with experts from different fields.

We design and develop the entire collection in Germany and produce the complete X-RAY series at the production site in Bavaria, Germany.

For TITAN®, being a strong partner means setting goals and achieving them together. Our incentive to reliably deliver high product quality whilst also focusing on long-term and committed relations with partners and customers, is what motivates us every day.

In 2020, we shall continue to focus specifically on growth and innovation. We continue to bank on the “Made in Germany” series, which strengthens German production in a sustainable manner now and in the future.

TITAN®
MADE IN GERMANY

HANDMADE IN GERMANY

By producing the “Made in Germany” collection on site in Germany, we emphasize what is important to us: quality and innovation. That is why our series X-RAY PRO and X-RAY are manufactured with ecological awareness and from especially light senosan® polycarbonate.. This specific polycarbonate is extremely stable and comes from an environmentally friendly production.

By using high-quality components and carefully handcrafting them, we create durable suitcases in Hauzenberg, Germany. The cases impress with their well thought-out features, their easy handling and their timeless design. By producing X-RAY PRO and X-RAY in Bavaria, we are also strengthening Germany as a production site; this fact and the high-tech material that we use, characterize the high-quality travel trolleys.

Our “Made in Germany” collection is not just a manufacturing process to us, but a passion. Therefore, we are constantly expanding this field. We innovate continuously and we work passionately to promote sustainable and regional production in Germany.

X-RAY PRO & X-RAY WITH FRONT POCKET

MATERIAL: SENOSAN® POLYCARBONATE

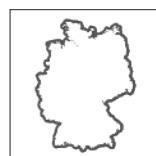

A sustainably produced hardside and an additional front pocket with functional compartments: These are the new and practical X-RAY PRO and X-RAY articles from the „Made in Germany“ collection – now also available with a front pocket.

NEW

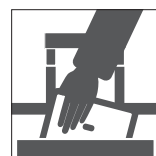

Your travel documents, a laptop up to 15 inches or a magazine are easy to fit into the textile front pocket with its laptop compartment and organizer compartments. The front pocket allows easy access to important items without having to open the main compartment first.

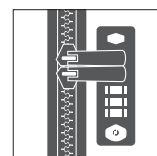

With its compact dimensions and the well thought-out interior division, X-RAY PRO with front pocket and X-RAY with front pocket are perfect for your next business trip.

X-RAY PRO

MATERIAL: SENOSAN® POLYCARBONATE

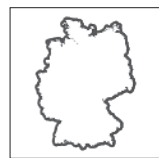

The new generation of luggage has arrived. The X-RAY PRO has a lock which gives a whole new meaning to security: personal fingerprints can be stored inside the X-RAY PRO lock.

Complex number combinations are now a thing of the past as the lock can simply be opened at the touch of a finger.

The X-RAY PRO, just like the X-RAY, is manufactured in Germany – by hand. The ultra-robust shell made of senosan® polycarbonate is the result of environmentally sustainable production.

The structured surface also has an attractive feel and is scratch-resistant. Smart features such as the USB port in the cabin-size luggage, smooth-spinning double wheels and a luxurious interior complete the striking design.

X-RAY

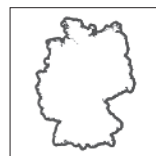

MATERIAL: SENOSAN[®] POLYCARBONATE

High-quality and extremely stable. Produced using environmentally friendly materials. A quality product made in Germany.
Ultra-robust travel trolleys do not need to be heavy – as is demonstrated by the X-RAY which is handcrafted in Germany.

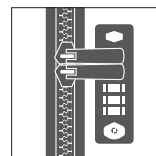

NEW COLOUR

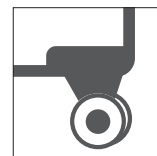

The series combines quality and exclusivity with functionality: The matt and scratch-resistant surface of the senosan[®] polycarbonate shell is especially stable, whilst also being lightweight and impressive with its clearly defined shape.

TITAN

HARDSIDE

The robust workmanship and stability characterize the hardside collection of TITAN®. Besides polycarbonate, materials like resilient polypropylene or solid ABS are also used in our luggage. When developing the hard shell collection, we do not only focus on the attractive design but also on high functionality as well as a smart and sophisticated interior.

X2

MATERIAL: POLYCARBONATE

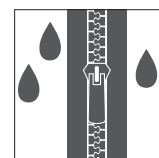

The X2 is an absolute statement piece which is always perfect.
The fancy polycarbonate shell combines stability with
an original cool-looking exterior.

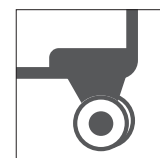

Several features of the series have been specifically
developed, including the TSA LOCK® recessed
into the shell and the side handle which
bears the TITAN® logo.

XENON

MATERIAL: POLYCARBONATE

Understatement, clear lines and top performance always go hand in hand.

NEW ARTICLE

The XENON stands out with its noble and classic design. The shell is made from polycarbonate, is extremely impact-resistant and the sharkskin surface also looks very impressive.

If it's style you're after, you'll love the XENON:
Not just for business trips; it is the perfect accessory for any situation.

LOOPING

MATERIAL: POLYPROPYLENE

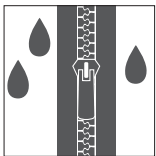

Exciting and rich in variety: the LOOPING creates quite a stir.
The structured design of the polypropylene shell combines
dynamic travelling with easy-going colours.

NEW ARTICLE

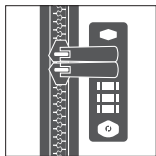

The travel trolley with front pocket also shows a
practical feature: the zipper on the front pocket can
be locked within the TSA LOCK®.

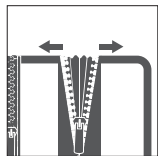

Designed for adventure, because it features a
rubber coated, highly water-repellent zipper. All
your belongings are well and safely accommodated
inside the case thanks to packing straps and packing
walls with zipper pockets.

SOFTSIDE

Resilient, sophisticated and light. For everyone who values flexible pieces of luggage, the soft luggage by TITAN® guarantees to hit the mark: The series are made from strong polyester, offer a vast amount of storage space and also have smart interior compartments. Thanks to the various external pockets and their low weight, the softside cases and bags are versatile organisational showpieces, making them the perfect companion on a business trip.

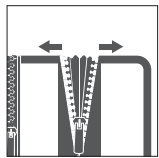

PRIME

MATERIAL: POLYESTER

Travelling smartly: with PRIME luggage you're always in safe hands. The ingenious and resilient polyester material with two-tone features shimmers softly. The series is an absolute showpiece when it comes to organisation.

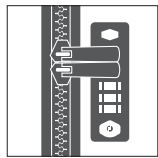

Several zipped pockets which can be accessed from the outside allow your hands to remain free. The interior of the PRIME has a separate shirt compartment and a removable, transparent liquids bag.

BARBARA
— & —
TITAN[®]

BARBARA & TITAN

In collaboration with BARBARA magazine and Barbara Schöneberger, stylish series have come to life, which are both variable and versatile.

Be it BARBARA GLINT, the glamorous elegant polycarbonate hardside series or the soft luggage series BARBARA made from grey, felt-like material with rose-gold details: whatever your personal favourite piece is, you're guaranteed to find it here.

BARBARA GLINT

MATERIAL: POLYCARBONATE

The glamorous hardside series BARBARA GLINT has been exclusively designed in collaboration with the BARBARA magazine and Barbara Schöneberger.

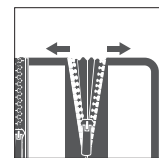

BARBARA
— & —
TITAN®

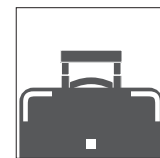

Clear structures, stable corner protectors and the cleverly organised interior with bow-shaped detail on the packing strap buckle distinguish BARBARA GLINT. The polycarbonate shell can withstand a lot and looks absolutely stunning. The trolleys are also extremely silent thanks to the four double wheels.
